

**European College for Veterinary  
Clinical Pathology (ECVCP)  
Constitution  
Registered Charity [number?]  
(London)**

**Introduction**

The European College of Veterinary Clinical Pathology (ECVCP) was established according to the general scheme for veterinary specialization in Europe which has been encouraged by the Advisory Committee for Veterinary Training (ACVT report document III/F/5285/3/91) and described in the "Policies and Procedures of the European Board of Veterinary Specialization [EBVS] (1995)".

The ECVCP was initiated by the European Society of Veterinary Clinical Pathology (ESVCP) at its first meeting in Vienna on September 26th 1998. Subsequent studies, reviews, and surveys by the ESVCP documented a need for an independent ECVCP and that EBVS criteria had been met for establishing an ECVCP (*Veterinary Clinical Pathology* 2001; 30:155,167). This College resulted from a growing desire to harmonize postgraduate training and provide certification in veterinary clinical pathology in Europe and a need for well-educated veterinary clinical pathologists with certified experience for leading positions in veterinary schools, commercial and government laboratories, and the pharmaceutical industry.

This publication provides a revised Constitution and By-laws of the ECVCP, and an Information Brochure with further information about the ECVCP, including a description of the science, a description of the requirements for admission to the College, a profile of the speciality, and application and examination procedures.
