Quality Veterinary Diagnostics  
from Disease to Optimal Health

## **Job Title: Veterinary Clinical Pathologist**

**Location:** Batt Laboratories Ltd, University of Warwick Science Park,  
The Venture Centre, Sir William Lyons Rd, Coventry CV4 7EZ

**About Us:** [www.BattLab.com](http://www.BattLab.com)

**Contact:** Please email your CV to [admin@BattLab.com](mailto:admin@BattLab.com)

**Start Date:** To be arranged by mutual agreement

**Duration:** Permanent following probationary period

**Hours:** Full time: 9 to 6 pm weekdays – some flexibility will be required due to the nature of the work to fulfil the responsibilities of the role.

**Pay Rate:** Negotiable according to experience

**Job Description:** We provide a comprehensive and very personal clinical pathology service to veterinary practices both locally and nationally. We are expanding and would like to recruit an additional very experienced clinical pathologist who will contribute to all aspects of our activities, including haematology, biochemistry, endocrinology and cytology, interpreting and reporting data, and consulting with our veterinary clients in response to requests for information and advice.

**Experience Required:** Qualified applicants must have a veterinary degree suitable for registration in the UK, and a post-graduate specialist qualification in veterinary clinical pathology (DipACVP or equivalent). Good communication skills and ability to work as part of a closely knit team are essential, with an enthusiasm for laboratory medicine and delivering excellent service. We are particularly interested in skilled applicants with a special interest in cytology.
