

Clinical Pathology Residency Position at the University of California–Davis

The University of California-Davis has a residency position available in Veterinary Clinical Pathology beginning August 1, 2015. The 3-year program is designed to fulfill training requirements and eligibility for board certification in clinical pathology by the American College of Veterinary Pathologists. Training emphasizes analytical and interpretive skills in diagnostic laboratory medicine (hematology, clinical chemistry, cytology, surgical pathology); basic principles of pathophysiology and disease; and quality control, test validation, instrumentation and laboratory data management. The resident will be based in the UC Davis Veterinary Medical Teaching Hospital and provide service and consultation to clinicians, technicians, residents, and students under the supervision of 5 board-certified clinical pathologists. The resident will participate in rounds and seminars, contribute to publication of case material, and design and execute an original research project. Residents also will participate in teaching clinical pathology to veterinary students. Opportunities exist for externships at IDEXX Veterinary Laboratories in West Sacramento, pharmaceutical/biotech industries, and laboratories for zoo animals, laboratory animals, and primates. Candidates with interest in an advanced (PhD) degree are especially encouraged to apply. Minimum qualifications are graduation from a school of veterinary medicine and one year of internship or equivalent practice experience. Starting salary is \$40,368 plus benefits. Continuation to subsequent years is contingent on satisfactory performance.

*Applicants should submit a statement of career goals, curriculum vitae, veterinary school transcripts, and 3 letters of recommendation to: dcgomez@ucdavis.edu. **Deadline for receipt of application materials is October 15, 2014.***
